SUMMARY:

As a recent Computer Science Engineering graduate, I have a strong foundation in programming and a passion for software development. With proficiency in C, C++, Java, HTML, CSS, and JavaScript, I am well-equipped for full-stack web development and software engineering. Through My projects, I have demonstrated my ability to solve real-world challenges effectively. I am eager to contribute my skills and drive impactful solutions as part of your team.

TECHNICAL SKILLS:

C, C++, Java, Html, CSS, JavaScript, SQL, Git, Github

PROJECT:

- **Portfolio-website**
My portfolio website is a visually appealing and responsive platform that showcases my skills and projects. It features sections like About Me, Projects and Contact. Users can easily get in touch with me through the contact section. The website is designed to grow as I continue to add new projects and update my skills.
- **Coverpage-Generator**
This website was created for my sister. It is designed to make college life easier by providing a hassle-free solution for generating cover pages for lab reports. Student just needs to fill the required information in the user-friendly input fields and upon clicking the download button the PDF cover page will be generated.
